COURSES & CERTIFICATES

TypeScript Udemy Certificate (2025)

React Full Course -YouTube

LANGUAGES

- **English**
- **Spanish**

INTEREST

PROJECTS

Restaurant Site & POS System

- Developed a comprehensive online restaurant platform featuring food ordering, cart management, and secure payments (PayPal and credit card) via Axios integration.
- Integrated table reservation and an evolving POS administration panel to streamline in-restaurant order processing.
- Implemented modern design elements and engaging animations.

E-Commerce Platform - TehnoTrade

- Developed a comprehensive full-stack e-commerce solution for a real client using React, TypeScript, and Node.js/Express. The platform features secure user authentication, product catalog management, shopping cart functionality, order processing system, and an admin dashboard with analytics. Built with modern technologies including Vite, Tailwind CSS, and MongoDB for optimal performance and scalability.

Chat Application – VoxElla

- Built a real-time messaging app using Socket.IO to facilitate seamless communication without page refreshes.
- Enabled profile customization, user blocking, and photo sharing, with support for up to 20 themes via DaisyUI.
- Currently in BETA, highlighting an evolving platform for dynamic user interactions.

**More projects can be viewed on my GitHub profile.*
